

Two-Factor Authentication (2FA)

Two?Factor Authentication (2FA)

Add an extra layer of security to your account by using a code from an authenticator app when you sign in.

Enroll 2FA

1. Sign in to the Account Console: <https://auth.junovy.com/realms/dds/account>
2. Go to Security (or Two-Factor Authentication).
3. Choose to set up an authenticator app.
4. Scan the QR code with your authenticator app (e.g., 1Password, Authy, Google Authenticator, Microsoft Authenticator).
5. Enter the 6-digit code to confirm setup.

Recovery options

- If recovery codes are offered, save them in a secure place.
- If you lose your device and have no recovery codes, contact your admin/helpdesk to regain access.

Best practices

- Use a password manager with built-in OTP support to back up your codes.
- Do not share your 2FA codes or screenshots of the QR code.
